DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1-7 are allowed since certain key features of the claimed invention are not taught or fairly suggested by prior art. **In claims 1 and 5, “wherein the selection signal selects an appropriate converter of the plurality of digital to analog converters to be driven according to the number of bits corresponding to the gray level”**. The closest prior art Waterman (6,850,218 B2) teach a plurality of digital-to-analog converters (DACs) are coupled to the LCD matrix through analog voltage switches and are adapted to produce output voltages that area applied to the pixels in the LCD matrix; Yoshida (2004/0075633 A1) teaches a plurality of D/A converters each provided with a means for storing digital data for correcting offset value and an operation means for adding or subtracting the digital data for offset value correction; Sekine (6,661,401 B1) teaches an LCD, includes, for each of liquid crystal display systems for RGB, and coupled in the named order, a ACD circuit for converting an analog signal from a signal source of a video signal for a display into digital signal, however, singularly or in combination with other prior art, fails to anticipate or render the above underlined limitations obvious.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Waterman et al. (6,744,415 B2, filed 7/25/01) teach plurality DAC (digital analog converter) receive multi-bit input and generates its output voltage to correspond to the digital input.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mansour M. Said whose telephone number is 571-272-7679. The examiner can normally be reached on Monday through Thursday from 8:30-6:00 P.M. The examiner can also be reached on alternate Friday from 8:30 a.m. to 5:00 p.m. EST.
